

## Kerry's Place Autism Services Charter of Commitments

A commitment between staff and families of supported individuals

When you entrust a family member to Kerry's Place for care and support, it is an important and emotional decision. It also is the start of a partnership that may be short term or long term.

This "Charter of Commitments" has been designed to help families understand what to expect from your partnership with Kerry's Place. The Charter helps identify actions and principles that apply to Kerry's Place staff and families alike.

The Charter was developed by the Family Advisory Committee (FAC), in collaboration with the Kerry's Place staff, at the request of Kerry's Place Board of Directors and Executive Leadership Team. The expectations are grouped according to how they align to Kerry's Place core Values: Respect, Choice, Integrity, Teamwork and Continuous Learning.

Several recurring themes emerged as the Charter was developed and are reflected throughout:

- the need for **regular collaboration** among the staff, experts and families at Kerry's Place involved in the care of the supported individual;
- recognition that optimum **quality of life** can only be achieved in a safe environment respectful of unique individual needs;
- a culture of **open communication and transparency** must be encouraged and maintained between families and staff, at all levels.

The Charter of Commitments represents a **commitment between staff and families** of a partnership guided by the continuing commitment of Kerry's Place to its Mission, Vision, and core Values from day one and for many years to come.
