

VISITING THE DENTIST

Visiting the dentist regularly is part of keeping my mouth and my teeth clean and healthy.

If I need help, staff can assist me in making appointments and telling the dentist's office what I need in order to have a successful appointment.

When I arrive at the dentist, they will check me in. Sometimes, I may have to wait for them to call my name.

When they call me in, I will sit in the big chair. I will have to open my mouth wide so that the dentist can use tools and water to check and clean my teeth.

If I get uncomfortable, I can ask for a break at any time.

The dentist may ask me questions or ask me to follow instructions. It is important I follow the dentist's instructions and answer their questions the best that I can! Staff will always be there to support me if I need.
