

EMERGENCY PREPAREDNESS

Emergencies can happen at anytime. Kerry's Place has a plan in place that helps keep everyone safe.

Emergency and safety plans are kept at our homes for anyone to refer to.

It is important that everyone at Kerry's Place follows this plan - that includes staff, volunteers, persons supported, visitors, and more.

I learn and practice what to do in emergencies. We practice drills every month so we are ready and prepared.

There are routes and designated waiting areas for evacuations.

It is important to keep my space tidy and make sure all the exits are clear in case an emergency occurs.

If I think there is an emergency, it is important that I report it to staff immediately.
