

# FAMILY CHARTER OF COMMITMENTS

The Family Charter of Commitments can be found on [kerrysplace.org](http://kerrysplace.org).

Everyone at Kerry's Place follows a list of commitments, called the Family Charter of Commitments, so that we can all work together respectfully.

I need my family and support staff to work as a team, and to talk to one another regularly. It is important that everyone listens to different ideas so that we can create the best plan for me.

Everyone learns and grows. I can expect my family and support staff to share information with one another as they learn about me.

We teach each other to make things better.

Choices that fit my preferences are important to me. I can expect my family to help me make the best choices in any situation. Support staff help me understand different options.

I need everyone to be honest with me. I need my family to be truthful and supportive while planning for me. I expect my support staff to recognize my abilities and preferences in order to help me achieve my best quality of life.
